THE BRIGHT GROUP

MK3 UNIVERSAL TOPPER

An Innovative design from TBG provides a new approach for the gaming industry topper signage.

The adaptive design of the Mk3 Universal Topper allows for a range of customer choice of cosmetics providing a visual impact that highlights attention and draws players to your gaming machine.

Operation Features and Benefits of TBG Universal Topper

- Clean aesthetic design, injection moulded from light weight high impact polymers.
- Chrome plated door, black housing. Customer choice of colours and plating options.
- Door options: with spot LEDs or diffused light door.
- Optionally fitting a second door to the back for double sided feature.
- Choice of light chasing sequences.
- Synchronization of light sequences for multiple toppers.
- Artwork lighting by superior LED edge lighting providing less power and heat comparing to other systems including LED back lighting without compromising the light effectiveness.
- Reduced maintenance with extended operating cycle (20,000 hours 24/7 operation).

- Provision for mounting tower lights.
- Easy adaptive mounting to accommodate most EGMs with perpendicular mounting angles.
- One screw, easily removable door.
- No screw for artwork replacements.
- All operational components are easily accessible from the front.
- Electrically safe low DC voltages (12Vdc or 24Vdc), power consumption under 15W for single sided topper.
- Manufactured under UL follow up procedure E245307.
- RoHS Compliant.
