THE BRIGHT GROUP

Enhancing the Gaming Experience

The recent unveiling of The Bright Group's EGM Sound Chair drew much attention from the EGM OEMs and operators alike.

Designed to attract and create an enhanced gaming experience for players, while keeping them comfortable.

For comfort, the chair features:

- Movement backwards (300mm) and forwards (100mm). Returning to default position when not occupied.
- Rotating on a pivot upto 90° each direction.
- Height is factory adjusted.
- A durable foot rest.
- Soft foam padding underneath the chosen upholstery.

Currently the chair is available in faux leather or in a durable fabric. Other upholstery options can be accommodated at the customer's request.

For sound, the chair features speakers by

MISCO
For The Sound You Want

- 2 x 3" speakers in the head-rest.
- 1 x 6.5" sub-woofer in the base.

Adding surround sound to the gaming experience.

The chair also features a 190mm x 467.44mm (portrait) illuminated artwork area for adding gaming or promotional signage, powered by TBG's 12VDC ELP illumination
